20-20 CAD by 20-20 Technologies supports commercial and residential design of cabinets, range hoods, vanities, corner cabinets, islands, store fixtures or other "special request" items. This versatile product targets businesses needing to design semi-custom, custom or "one-off" case good products. Two key benefits are the ability to upload files into 20-20 Design and output to CNC machines for manufacturing. 2020Technologies.com
